Windows
Which type of installation do you want?
Upgrade
Upgrade to a newer version of Windows and keep your files, settings, and programs. The option to upgrade is only available when an existing supported version of Windows is running. We recommend backing up your files before you proceed.
Custom (advanced)
Install a new copy of Windows. This option does not keep your files, settings, and programs. The option to make changes to disks and partitions is available when you start your computer using the installation disc. We recommend backing up your files before you proceed.

You can get through some basics quickly. By choosing these express settings, this PC will occasionally send info to Microsoft to help make things run more smoothly in Windows.
Windows Developer Preview will send some info to help make Microsoft software, services, and error reporting better.
Express settings
• Automatically install important and recommended updates to help protect my PC
• Help protect my PC from unsafe content, files, and websites
• Send us info to help make Windows and location services
• Check online for solutions to problems
اذا اردت تخصيص الضبط
Use express settings
